The purpose of the **Greater Oxford-Area Guide to Health and Human Services** is to provide assistance to Talawanda School District Student Assistance Program Teams, local physicians, and mental health care providers in locating options for students and their families who may need assistance from outside resources and agencies.

The guide has been produced by the Talawanda School District Guidance Department and funded by the ODASAS grant with the support of the Coalition for a Healthy Community-Oxford. The goal is achieved by utilizing an asset-based approach to working with young people and intentionally fostering positive youth development.

Provider agencies and resources in the Oxford, Hamilton and Middletown areas are listed by category. In addition, this guide contains lists of the 40 Developmental Assets, by age, that have been identified by the Search Institute as critical building blocks in the development of healthy, productive youth.

Please Note:

- For 24-hour general information and referral service for all social services in Butler County, call 2-1-1.
- For 24-hour emergencies dial 9-1-1.
- Private practice mental health professionals are found in the yellow pages under “counselors”.
