

Talawanda School Climate Committee

Goals

1. Communicate school climate news and market activities to increase educational opportunities within the community.
2. Identify grants to secure alternative funds to support professional development needs.
3. Review anti-harrasement and non-discrimination policies to determine if language changes shuld be recommended to the Board of Education.
4. Provide professional development opportunities that help staff and community members understand diversity issues and identify evidenced based strategies that increase student achievement.
